1 Notes

515997 Change to Enhancement 512007

IBL and PAP/ACH modules: All PAP methods are now supported for use with Interest Bearing Loans (IBLs).

LeasePak Client Memory Requirements

MSI has updated the memory requirements for computers running the LeasePak client software. Refer to *System Requirements* (docsuite/sag/general/system_requirements/system_requirements.htm) in the *System Administration Guide* for more information.

Search Function

MSI is now using the program **htdig** to run the MSI Hosted Search. This change does not affect how the Search function is accessed or used from the Documentation Suite. The htdig software is also available if you wish to host a documentation server at your own site. Refer to the Documentation Suite Reference (docsuite/shared/pdf/docsuite_ref.pdf) and contact your MSI representative for more information.

2 Discrepancy Fixes

Verified

For verified fixes, the corrections have been made and verified.

Ticket Number	Main Update or Report	Description	Ver/Build (n.nn.nnnn)
511873	U0102	U0102 updates using MSI lock manager were not releasing the lock. <i>Corrected prior to the 5.1a GA release.</i>	5.01.1195
515019	U0212 AS	<i>Documentation.</i> Assessment Customizations needed clarification of assessment types E and T.	5.10 (1/05)
515259	U0203	Encountered error in U0203 while attempting to update the SSN and DBA fields: "The update has been cancelled because the record was modified by another user. Please re-enter your update."	5.10.1370
