LeasePak Version 6.5a
MR8 Release Bulletin
August 25, 2015

LeasePak Version 6.5a MR8 Release Bulletin

Release 6.5a MR8

Discrepancies Fixed

Version	Build	Ticket	Description
6.50	4219	536564	U0420B - data is not being correctly displayed - the last two columns are showing invoice items rather than total amounts applied.
6.50	4219	536614	Invalid results are being returned on the client search screen when searching for a lessee that has the SSN field populated with wildcard character such as '%', '_', '*', or '?'.
6.50	4218	535985	R0104 will not show any lease information if all the leases are contained in a single PCRO.
6.50	4218	536588	Search function: each time the user updates the license plate in either U0210 or U01701V, multiple records are written.
6.50	4217	536579	Flex field data is not set correctly for Vertex O leases, in cases where UDF is defined as \$ type in U0212.
6.50	4217	536590	The Metro2 file is not denoting the Account Type field in the Base Segment correctly for equipment type leases and loans.
6.50	4217	536604	U0116 Rebook: if user changes the due day, user gets error message that the commencement date does not match and the rebook cannot pass the edit check.
6.50	4213	536432	The F5 HTML Summary screen terminates if the shared user module is being used.
6.50	4213	536522	U0102, Enhanced Payments: on clicking 'Red Flag Warning', error appears when a shared user is used. When using a dedicated user, it does not.
6.50	4213	536591	When deleting a user from collection user profile, an edit check should be performed to not allow the deletion of a user that has collection records that are manually assigned.

Release 6.5a MR8

Discrepancies Fixed

Version	Build	Ticket	Description
6.50	4209	535637	LPAuxTableMaint -> loadMnfMdl: web service should only accept capitalized letters; currently it is accepting lower case lettering.
6.50	4209	535982	lxget_tax_rate.c: A blank location value is not acceptable, error appears when run alternative lease summary with 'vci_lsesum_Summary.xml' & 'Lsesum_Lease' templates for Vertex-O leases.
6.50	4208	535789	U0725 Sales Tax on Assessment: Default assessment tax class 'NONE' should not be deleted from RCC.
6.50	4208	536519	If an office has it's label reset in U0712, then memory corruption can appear within message boxes.
6.50	4207	536457	U0212, Misc Customization: if vehicle module is not purchased, bad debt percentage displays 0%.
6.50	4206	536367	Lease tied to customer group with advanced payment and set up to be paid in book lease hits lxbuffer error in U0101 Book Lease.
6.50	4205	535885	V65a and V66a, mPower, MsiAppExtractor is not working for UDC client.
6.50	4204	535934	In the HTML/F5 screen, the following fields for M-T-M leases need to be fixed: Original Lease Receivable, Operating Lease Balance, Estimated Remaining Term, and Number of Remaining Payments.
6.50	4203	535942	Metro2: When using a birth date of 1943 in the lessee or co lessee table, the metro2 extract is placing 2043 into the base and j2 segments.
6.50	4202	536017	When a user is forced to change his/her password and auditing is turned on, the user is getting an "ORA-00001: unique constraint (LPR_PROD_66A.RZA_IDX0) violated" error.
6.50	4201	535920	Accrual is failing due to user adding an auto lease extension record for a lease that is already extended M-T-M, only if advance invoice and pre accrual switch is set.
6.50	4200	535896	The RCK Check table and check counter table MSVH run into duplicate key issues when the MSVH counter has been reset.
6.50	4200	535897	The RSU Suspense table and check counter table MSVS run into duplicate key issues when the MSVS counter has been reset.
6.50	4200	535898	The RSR Suspense Reversal table and reversal suspense counter table MSVV run into duplicate key issues when the MSVV counter has been reset.
