Database Changes

There are no database changes in ga release.

For the full listing of LeasePak 7.4a database objects, refer to the [Database Reference](#).

Enhancements

542361 Upgrade mPower to integrate latest AXIS2 version

Build 8068

Internal code enhancement and does not change user interaction.

543477 MPower Security Vulnerabilities

Build 8068

Added support of authentication modes for API web services.

544670 EOP Functionality by Web Services

Build 8068

This enhancement provides users an option to run eop by using APIs. The new mPower EOP works the same as EOP SUITE II works today.

- [mPower End of Period](#)

544788 LPShared Script

Build 8068

Enhancement to allow users to use the shared user module with lease/util.

- [Shared User](#)

544866 Lease Date Affects Yield Enhancement

Build 8068

Modifies the existing Lease Date Affects Yield functionality to allow for leases with an advance or an arrear accrual method with a lease date before and after the commencement date. This new functionality also supports prorate income.

- [U0122 Portfolio→New Lease Customizations](#)

[Return to Top](#)
