Release 6.2a MR2

Discrepancies Fixed

Version	Build	Ticket	Description
6.20	3132	528357	mPower 's insert notebook API call does not insert the note information properly in Oracle if the note has more than 500 characters.
6.20	3132	528760	On RHEL5, post and pre user command procedures are failing.
6.20	3132	528762	When the Off-Lease billing module is not purchased a user cannot assess an asset level assessment to an invoice even when the asset is on lease.
6.20	3131	528355	Payment Reschedule Deferment Reversal is getting incorrect error message ('Cannot reverse invoice up to process month') with lease that has due day 31 and April 30 invoice is deferred.
6.20	3131	528444	The R0404 report should not include deferred extension rents for operating leases.
6.20	3131	528601	When pressing the FASB 13 Test button on the application screen, Oracle users are getting a Unique Constraint error on the RZA.
6.20	3131	528750	When user changes his/her password through LeasePak on Oracle, the ?replace? Option must be explicitly specified, when the DBA has the password_verify_function enabled.
6.20	3130	528277	U0126 Cash Control using Lease # is not populating the bank code in the rpm record. When payment is reversed, Leasepak is using the wrong bank codes to reverse and reapply. Also, using Batch Payment with Lease # will not work as well.
6.20	3130	528303	Leases set for PAP Y are not being pulled for PAP if only assessments are open.
6.20	3129	528139	U0109 Clear Suspense via Cashier's Check and deleting lease # caused an error message of "Could not read Lease < >" on U0102 Batch Number Payment Reversal.
6.20	3129	528260	If the dollar amount in R0401 is too big, non-XML report will not display properly because of overflow. XML report will crash with error "mxstr_dol_10_2: output length exceeded".
6.20	3129	528328	The Auto Apply Payment Suspense to Payoff U0427A Report still does not carry the Suspense number associated with transaction.
6.20	3129	528352	LeasePak is not performing due day change, if there is any partial interest on an open invoice even the invoice due date is before the accrual to-day when the due day change is made.
6.20	3129	528385	U0118 Due Day Change performs a partial update after getting 2601 duplicate key error.

Release 6.2a MR2

Discrepancies Fixed

Version	Build	Ticket	Description
6.20	3129	528467	U0118 Due Day Change Reversal is allowed for IBL even there is a full paid invoice with invoice due day equal to new due day. If the paid invoice is reversal after Due Day Change Reversal, user cannot accrual reversal back.
6.20	3129	528547	In v62a when the return result from the SQL contains char (160), DocGen display "?" instead.
6.20	3129	528703	R0601 crash in EOP or interactive if only portfolio is entered and gives "SUBTOTALS MUST BE PASSED TO LSTOTAL BEFORE GRAND TOTALS CAN BE CALLED" error message.
6.20	3128	528482	The Master G/L reconciliation report is failing on RH5/Oracle11.
6.20	3128	528548	Leasepak does not allow payment effective date of more than 1 month pass accrual to-date for IBL payments.
6.20	3128	528558	Report R0408 is showing property tax with amount > 0 even no property tax is assessed.
6.20	3128	528559	Lease with outstanding account payable is missing in the R0408 report.
6.20	3128	528606	Batch Payoff module repeatedly and erroneously applies \$55 collection fee waiver to multiple accounts, it should only apply to only 1 account.
6.20	3128	528610	In the LeasePak R0405B 052410 report the Transaction Count shows 0 as the total transaction count whereas, there are numerous transactions.
6.20	3128	528614	MsiAppOriginatorDocLit service, applicationStatusTransfer method. API will not accept the new owner field has only 2 characters, and gives "Invalid Application User" error.
6.20	3128	528647	A type mismatch error is occurring in application book requirements, when the book depreciation date is missing and the book depreciation method is something other than blank or BY* (bypass).
6.20	3128	528656	When performing a payoff, the new/used field is getting reset based upon the assets equipment status.
6.20	3128	528662	GLOOB when U0225 Subvention amount is reduced. It is debiting the 258(IDR6) account instead of the 256 account (IDR5).
6.20	3127	528327	Portfolio and Company label are missing in the input screen of U0101 Batch Application for Linux.
6.20	3127	528451	The following message is received when using a Canadian province without place field on the UCC Title filings grid: "County/state or city/state combination does not exist."

Release 6.2a MR2**Discrepancies Fixed**

Version	Build	Ticket	Description
6.20	3127	528464	When adding a Co-Lessee, through U0801 Add Application, the error message "Lessee does not exist" is displayed even if the Lessee does exist.
6.20	3127	528483	The linkIT API is users to enter a space character on the end of a three byte county code location.
6.20	3127	528490	While updating a record that has already been updated by a user, the following error is received: "Msg 2732, Level 16, State 1 Server 'SEVILLE_SYBASE', Line 5 User error number 2500 is invalid. Number must be between 17000 and 2147483647".
6.20	3127	528517	The lease/utility 227 is creating an "I" file instead of the "lpu0302.scr" file. This "I" file is unreadable unlike the "lpu0302.scr" file.
6.20	3127	528520	The linkIT API is justifying the county code location incorrectly for the UCC title filings field.
6.20	3127	528543	When submitting a report batch file for the R0905 to the queues, a leasepak_error.log occurs on the RHEL5 platform.
6.20	3127	528628	The linkIT API is not correctly validating non-Vertex codes (less than 4 characters) in database with Vertex rates loaded.
