Release Bulletin

A full list of discrepancies fixed and enhancements delivered in this release are in the latest Release Bulletin ([66a_release_bulletin_mr1.pdf](#)).

Important Notices

Increased User-Defined Field and Table Code Description Sizes [Return to Top](#)

Build 4531

Enhancement 533660 increases size for user-defined field code values to 36, size for user-defined table code values to 12, and size for both user-defined field and table code descriptions to 60. It also moves code type definitions for user-defined fields and tables from rcc Table: Custom Code to rcy Table: Extended Code Type and code value and description definitions for user-defined fields and tables from rcc Table: Custom Code to rcz Table: Extended Code.

Increasing the code value sizes on your system must be done in the DBMS directly using SQL. Contact your NetSol representative for assistance.

! Expanded Manufacturer and Model Code and Name Sizes **Build 4531**

Enhancement 533643 expands the Manufacturer code (mnf_s) and the Model code (mdl_s) to 10 characters each and the Manufacturer name (mnf_nam_s) and Model name (mdl_nam_s) to 50 characters each, replaces the tables mvd_mnf and mvd_mdl with views vrvd_mnf and vrvd_mdl, and shifts all code and name values to be left justified. Contact your NetSol representative if you have processes that will need adjustments as a result of these changes and would like more information.

i System Administration Guide Improvements **Build 4531**

NetSol Research & Development and Technical Communications departments teamed up to begin several improvements to the SAG, starting in Leasepak 6.5a and continuing in 6.6a. These include:

- Conversion of several documents from an older, primarily Javascript-based system to the newer, primarily PHP-based system, boosting page performance and load times up to 25% by moving processing from the browser to the server
- Creation of a centralized link system within the SAG, decreasing the risk of dead or broken links
- Clean-up of glossary references using server (PHP) based coding and limiting links to the first occurrence on a page
- New overviews on the Custom Bcp Query feature, databases, database environments, datasets, and the LeasePak handling of Sybase devices and Oracle tablespaces through one interface
- Revised pages on conventions, server users and roles, and directory trees (with new, up-to-date diagrams)
- Updates, corrections, and clarifications to LeasePak Server Configuration and Maintenance

We are excited by the changes so far and looking forward to more improvements in this and future versions.

Enhancements

Sorted by ticket number, ascending. For enhancements delivered specifically in this release (if any), refer to the [Release Bulletin \(66a_release_bulletin_mr1.pdf\)](#). For a cumulative listing of enhancements in this or previous LeasePak versions, refer to the [Release Notes Archive](#).

526173 Additional Assessments

Build 4531

Adds 20 new lease-level assessments, 10 new asset-level assessments, and increases the number of recurring charges to 35. Users will need to license the additional assessments in order to configure and use them. Contact your NetSol representative for more information.

- [U0212 Portfolio → Assessment Customizations](#)
- [U0212 Portfolio → Calculation Customizations](#)

531738 API To Extract Broker Information

Build 4531

First introduced in version 6.4a, extracts LeasePak broker information, depending on the input passed in as a broker id and updated after a given date and time, to synchronize CAP data.

- [Web Service LPSearch → getBrokers](#)

531739 API To Extract Vendor Information

Build 4531

First introduced in version 6.4a, extracts vendor information, depending on the input passed in as a vendor ID and updated after a given date and time, to synchronize CAP data.

- [Web Service LPSearch → getVendors](#)

533577 Interest-Free Months

Build 4531

Requires the Interest Bearing Loan module. Adds a field when setting up an application for or booking an interest bearing loan (IBL) that allows the user to specify an interest-free period in months, beginning at the commencement date, where the lessee will not be charged interest. After this interest-free period has passed, LeasePak will resume calculating interest using the fixed or floating rate plus add-on interest rate that is attached to the IBL.

- [Interest Bearing Loans \(Overview\)](#)
- [U0101 New Lease → Book Lease → Interest Free Months](#)
- [U0801 Application Tabs → Interest Free Months](#)
- [R0502 Application Inquiry → Interest Free Months](#)
- [R0905 Lease Inquiry → Interest Free Months](#)

533624 Vendor Last Updated Fields

Build 4531

Maintains new last updated fields for API Vendor Extract.

- [Web Service LPSearch → getVendors](#)

533626 Broker Last Updated Fields

Build 4531

Maintains new last updated fields for API Broker Extract.

- [Web Service LPSearch → getBrokers](#)

533643 Expanded Manufacturer and Model Code and Name Sizes

Build 4531

Expands the Manufacturer code (mnf_s) and the Model code (mdl_s) to 10 characters each and the Manufacturer name (mnf_nam_s) and Model name (mdl_nam_s) to 50 characters each. Replaces the tables mvd_mnf and mvd_mdl with views vrvd_mnf and vrvd_mdl. Shifts all code and name values to be left justified.

- vrvd_mnf View: Manufacturer
- vrvd_mdl View: Manufacturer/Model
- rvd Table: Asset Description
- U0710 Asset Description

533659 Increased Number of User-Defined Fields

Build 4531

For users with the Expanded User Defined Fields module, increases the number of user-defined fields in each area to 250.

- U0212 Portfolio → User Defined Fields/Tables

533660 Increased User-Defined Field and Table Code Values

Build 4531

 **Increasing the code value sizes on your system must be done in the DBMS directly using SQL. Contact your NetSol representative for assistance.**

Requires the User Defined Fields/Tables module. Increases size for user-defined field code values to 36, size for user-defined table code values to 12, and size for both user-defined field and table code descriptions to 60. Moves code type definitions for user-defined fields and tables from rcc Table: Custom Code to rcy Table: Extended Code Type and code value and description definitions for user-defined fields and tables from rcc Table: Custom Code to rcz Table: Extended Code.

- rcy Table: Extended Code Type
- rcz Table: Extended Code
- U0722 Custom Code

533730 Upgraded mPower Web Services

Build 4531

Upgrades the LinkIT web services to use Axis2, therefore enabling all services to auto deploy; deployment scripts are no longer needed.

- Web Services (LinkIT) Deployment

533763 Auditing Update (DZZ) Code Clean-up

Build 4531

Cleans up and improves code for the auditing update (DZZ).

- R0413 Non-Monetary Archive Report

533789 Increase Assessments on an Invoice

Build 4531

Increases the maximum number of assessments on an invoice to 25.

533888 db_snapshot/db_restore: Multiple Files for Same Tables

Build 4531

Allows for further customization of `db_snapshot` and `db_restore` BCP snapshots/restores.

- Custom BCP Queries

533889 db_snapshot/db_restore: RTX Based on Date/Time

Build 4531

Allows for further customization of `db_snapshot` and `db_restore` BCP snapshots/restores.

- Custom BCP Queries

534310 U0604 Depreciation EOY Performance

Build 4531

Enhances performance of the End of Period module.

- U0604 Depreciation EOY

534311 U0606 Gain/Loss EOY Performance

Build 4531

Enhances performance of the End of Period module.

- U0606 Gain/Loss EOY

535398 DAR, DHA, DPH d-Map Clean-up

Build 4531

Internal processing code clean-up. Does not affect user interface, visible processes, or relational database.

535414 U0445 Missing Auxiliary File Elements

Build 4531

Modifies End of Period report to support dynamic data. Does not affect user interface, visible processes, or relational database.

535455 Asset-Level Assessment Types

Build 4531

With Enhancement 526173 Additional Assessments and Recurring Charges, the 3 original asset-level assessments will still be type 'P' Passthrough/Payable, while the 10 new asset-level assessments will be type 'I' Income. The user cannot change these types.

535495 mlo_county and mlo_city: Tables to Views

Build 4531

Replaces database tables `mlo_county` and `mlo_city` with views `vlo_county` and `vlo_city`.

- LeasePak Database Objects

535638 U0709 Activity/Bankruptcy Status to Base System

Build 4531

Moves U0709 Activity/Bankruptcy Status to the LeasePak Base System—no additional modules required to access this update.

- U0709 Activity/Bankruptcy Status

535639 Window Menu → Utilities Access for 223 Metro2 Export File

Build 4531

Adds a selection for Utility 223 Metro2 Export File to the LeasePak client Window Menu → Utilities.

- Utilities Menu

536024 Batch Payoff Code Maintenance (LSPF.MAP)

Build 4564

Internal code enhancement—does not change user interaction.

536025 Invoice Scratch File Code Maintenance (LPAINVC.MAP)

Build 4564

Internal code enhancement—does not change user interaction.

536027 Batch Payments Code Maintenance (LSPMT.MAP)

Build 4564

Internal code enhancement—does not change user interaction.

536028 Lease Booking Code Maintenance (LPUNEWL.MAP)

Build 4564

Internal code enhancement—does not change user interaction.

536051 Automate the LeasePak auditing system as part of DBA changes

Build 4564

Internal code enhancement—does not change user interaction.
