7.10	5991	543296	U0101/U0116: The update stops showing revolving credit limit and PAP/Electronic Payment screens if any of the RCR's are not in use at portfolio level.
7.10	5991	543353	U0101BA: The PAP/ACH information is not copied to the lease record correctly when U0212 Recurring Charges are not used along with PAP/ACH type being set to ACH.

Release 7.1a MR6   **Discrepancies Fixed**

Version	Build	Ticket	Description
7.10	5991	543489	U0801: Deleting a pending asset from application is showing an error message that the record is being modified by another user whereas, the user deleting the record is the only user accessing the record (application).
7.10	5991	543492	U0101 Batch Application: The error message should indicate that user has not input the Dealer Reserve Buy Rate or Program Rate instead of Input Required message.
7.10	5991	543532	lxacctbal.c is double counting some assessments.
7.10	5991	543620	Mpower: MsiAppOriginator-createApplication has a missing edit check for the application where term=0 and Book IDC is <> 0.
